This is the **sink**. The sink is normally used to wash your hands. You can find a sink in the bathroom and also in the kitchen. When you wash your hands in the sink, you use **soap**. In the sink, I also brush my teeth. I use a **toothbrush** and **toothpaste** to brush my teeth and to check my teeth are nice and clean, I look in the **mirror**, which is a big glass reflection of myself.

Another important thing in the bathroom is the **toilet**.

This is a bath shower because it's a combination of a bath and shower. A **bath** is the big tub at the bottom and you lie down to have a bath. A **shower** is the water from the ceiling, at high. When I have a bath or a shower, I wash my hair and I use **shampoo** to wash my hair but I use something different to wash my body. This is **bodywash**. So shampoo for the hair and body wash for the body. Once I've had a shower I need to dry myself and I use this big piece of material called a **towel**.
