

## Parts of an Animal

# Parts of an Animal

paw

*The foot of some animals. This has a soft pad on the bottom.*

# Parts of an Animal

coat/fur

*The short hair found  
on animals*

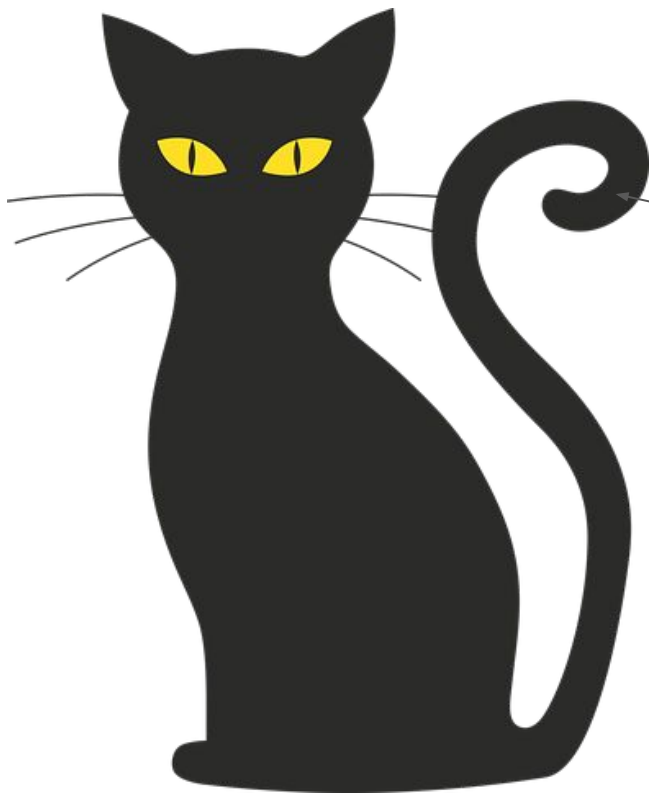

# Parts of an Animal

nail

*A solid material found on fingers and toes. If this is extremely sharp, it's called a claw.*

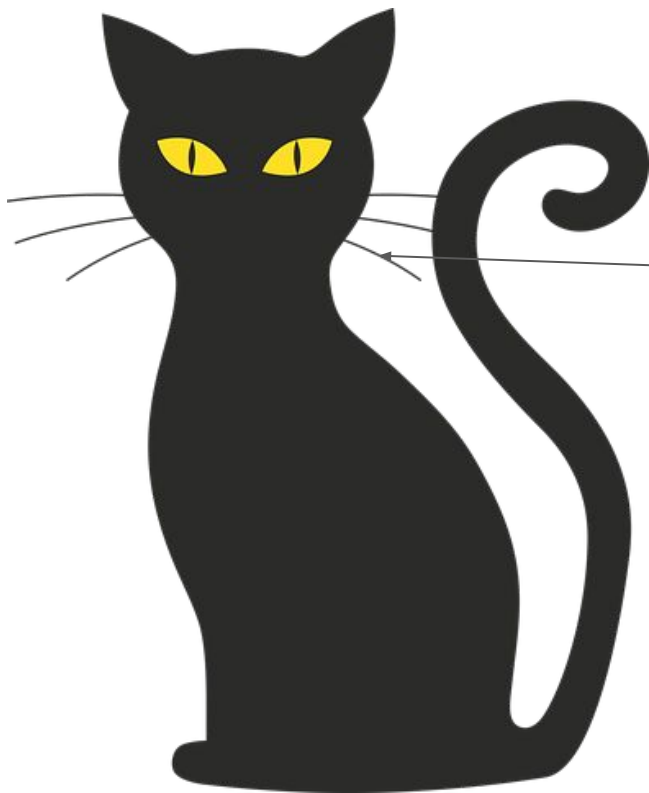

# Parts of an Animal

tail

*The very end of some animals. This is an extended part of the back. Cats, dogs and many other animals have tails.*

# Parts of an Animal

whisker

*A long hair that grows  
around the mouth of an  
animal*

# Parts of an Animal

wing

*The part of the body that helps a bird fly. The wings move.*

# Parts of an Animal

feather

*The “skin” of a bird.*

# Parts of an Animal

fin

*The part of an aquatic animal that helps them to swim*

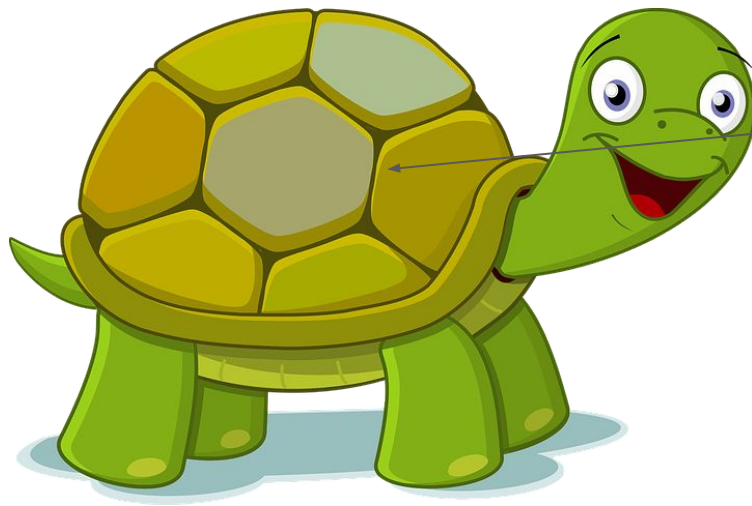

# Parts of an Animal

hoof

*The foot of some animals, especially if it is solid and in a circular shape*

# Parts of an Animal

shell

*The solid protective part of some animals. Animals with a shell can hide inside this shell, for example a snail, a tortoise.*
