

Humans will travel to another planet and find aliens

Robots will be a “normal” part of life in the future

The environment will be  
safe and healthy again

We will have another  
global pandemic

Computers will take over  
the world

We will have another  
world war

Fashion will change  
dramatically

There will be no crime in  
the future

The global population will  
continue to grow

Healthcare will be  
amazing in the future

# Flying cars will exist

# People will still use cash
