

Phrasal Verbs for Music

I'm really into karaoke. I love going to the local karaoke bar, choosing my favourite song and belting it out with my friends. We can all chill out and have fun when we go to the karaoke bar. My best friend has an amazing voice so she always shows off when it's her turn. We always turn the microphone up when she sings so everyone in the karaoke bar can hear her amazing voice!

I always choose the same song, *I Will Survive*, but there's a new song that recently came out that I love! Maybe I'll sing that next time.
