

The city is better than the
countryside

We can't take any more actions
to save the environment

We need to plant more
trees in the cities

It is bad to have flowers
and plants in the home

Picnics cause littering for the environment

You shouldn't collect shells from the beach. It damages the ecosystem.

We shouldn't spend more
money on space exploration

Schools should use more
nature in class

There will be a lack of water
in the future

Bottled water is very bad
for you
