

Phrasal Verbs for Fashion

I'm a very fashionable person but I don't go crazy and buy new clothes every season just to be sure my outfits **are in**. Sometimes when I'm at home relaxing, I'll wear clothes that **are out**. Like now, I **have** trackies and a hoodie **on** to be more comfortable.

I really love **dressing up** though, **putting on** a gown or something fancy. Having said that, it's also nice to **dress down** into something more relaxing too.

I really love shopping but I hate **trying** things **on**, it takes so long! You need to try things on though otherwise it might not fit and you'll need to pay for it to be **let in** or **out** or **taken up** or **down**.
