

Paperbooks v e-Books

Use the content below to help you write your argumentative essay.

Paperbacks	Ebooks
⇒ There's nothing quite like the feel and smell of a book, it's so original ⇒ You can scribble on the books, annotate the margins, fold over the corners ⇒ Many people have happy memories of holidays soaking up the sun with a paperback book in their hand ⇒ You can see how far you've got left to go in the book ⇒ You're supporting the local bookshops and the literary industry ⇒ Bookshelves look beautiful in the house CONS ⇒ Books can be very heavy and take up a lot of space ⇒ The glue often wears away and the spines start to break	⇒ You can easily adjust the font and style ⇒ You can store thousands of books on one small device ⇒ You can easily share these with others with tools such as Airdrop and email ⇒ They're portable so you can carry them around with you ⇒ They're extremely affordable, in fact, much cheaper than paperbacks CONS ⇒ Staring at a screen can be very bad for your eyes ⇒ It's very difficult to find the page you last left off ⇒ You can be easily distracted by links on the book then get side-tracked
