Practice 1

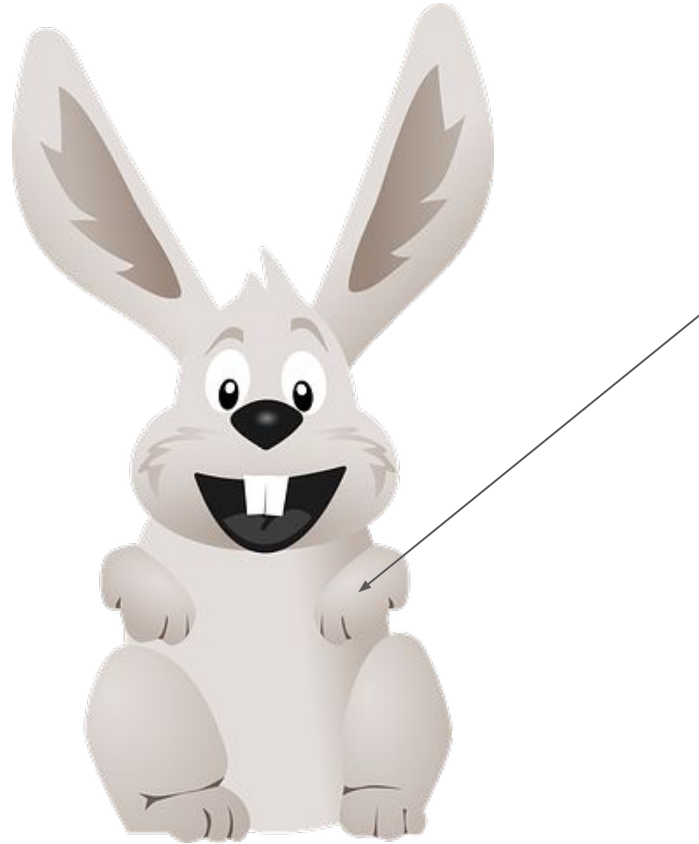

Pets Conversation

It's conversation time!

Pets

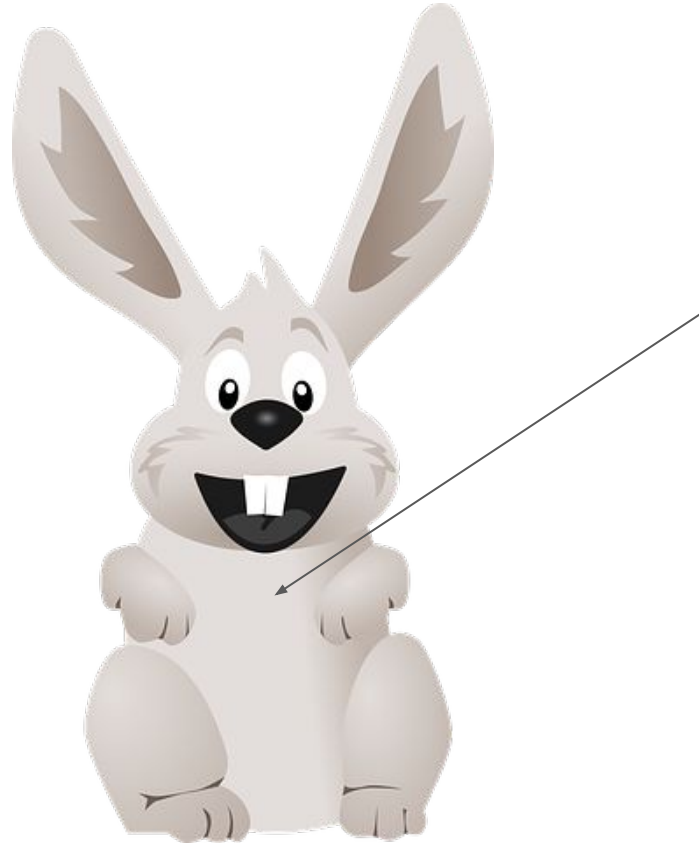

Pets

paw

The foot of some animals. This has a soft pad on the bottom.

Pets

Pets

coat/fur

*The short hair found
on animals*

Pets

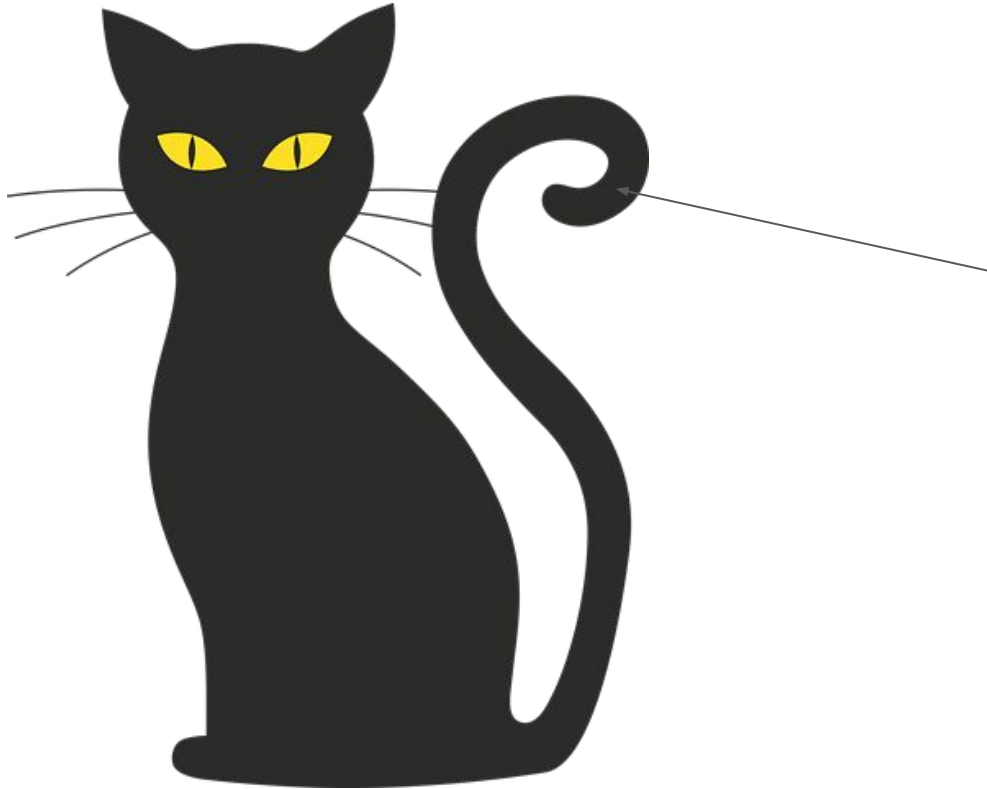

Pets

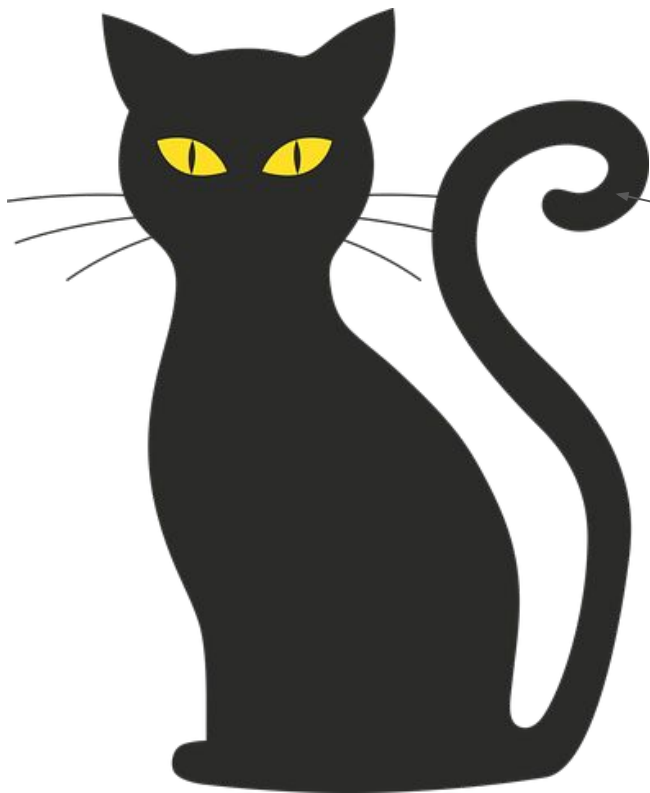

nail

A solid material found on fingers and toes. If this is extremely sharp, it's called a claw.

Pets

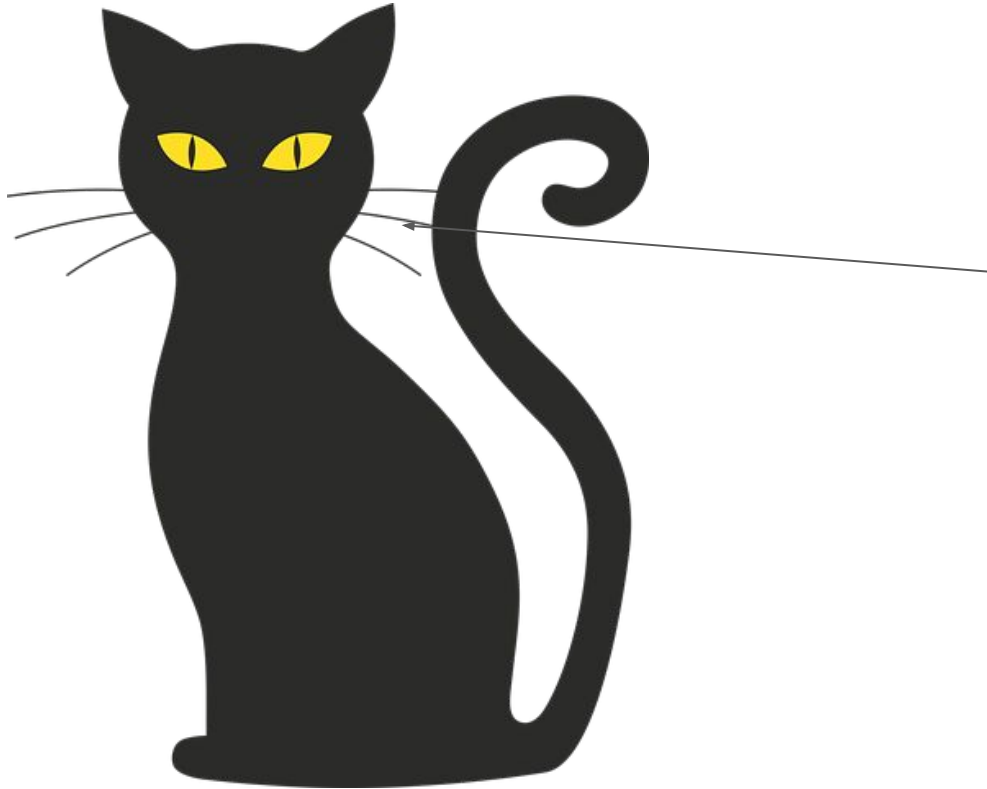

Pets

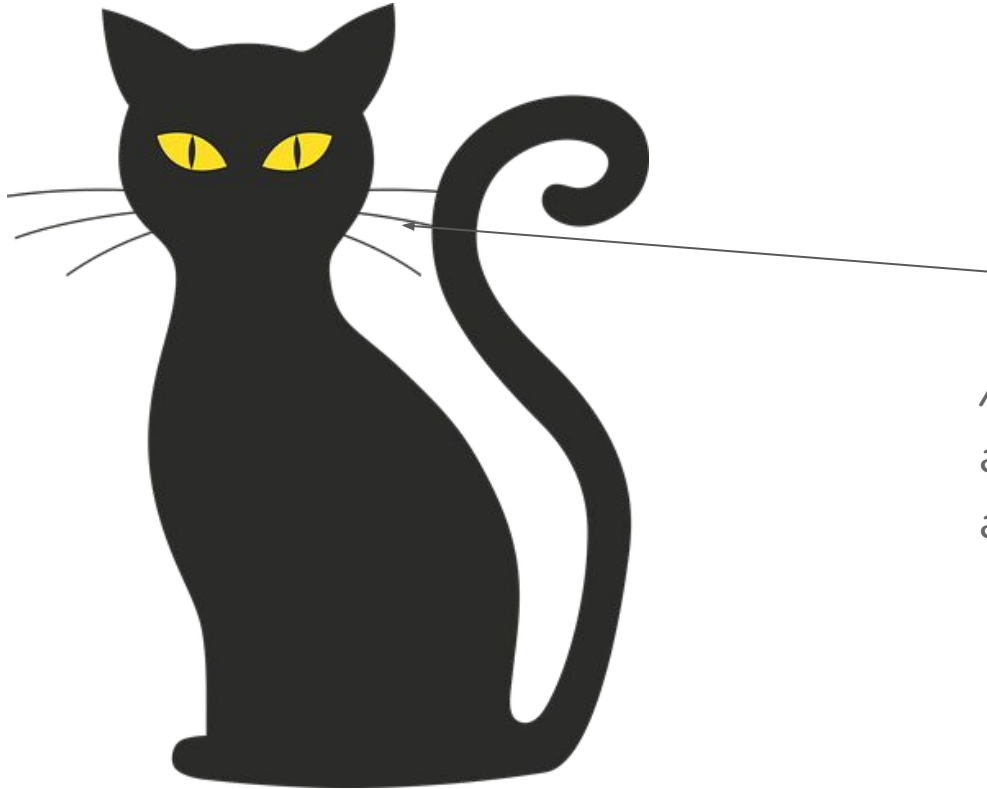

tail

The very end of some animals. This is an extended part of the back. Cats, dogs and many other animals have tails.

Pets

Pets

whisker

*A long hair that grows
around the mouth of an
animal*

Pets

Pets

wing

The part of the body that helps a bird fly. The wings move.

Pets

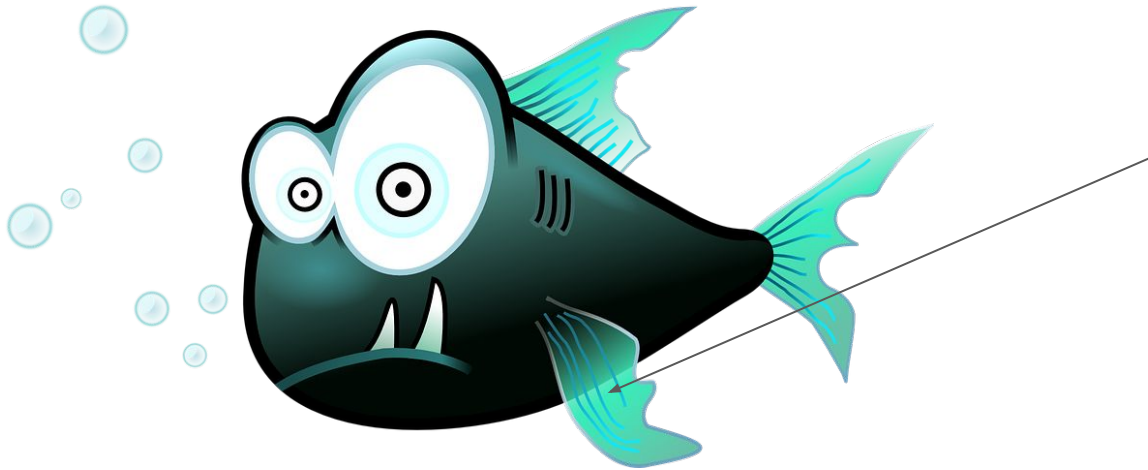

Pets

feather

The “skin” of a bird.

Pets

Pets

fin

The part of an aquatic animal that helps them to swim

Pets

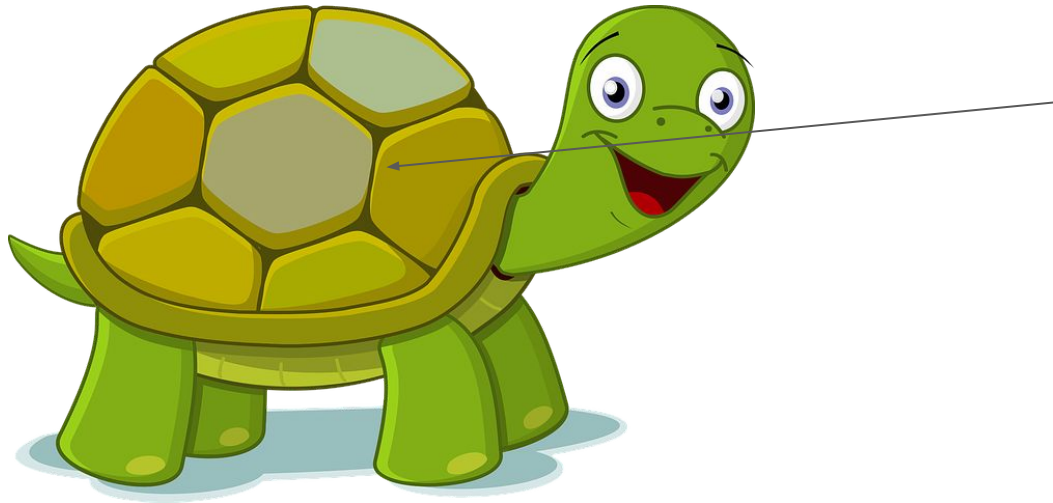

Pets

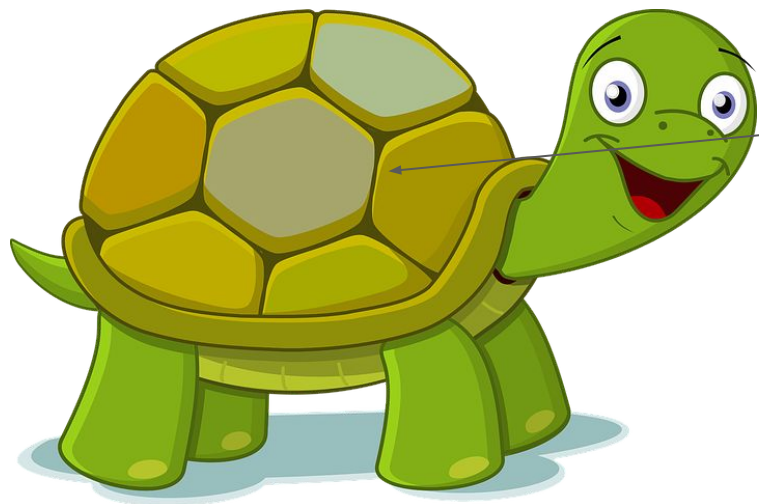

hoof

The foot of some animals, especially if it is solid and in a circular shape

Pets

Pets

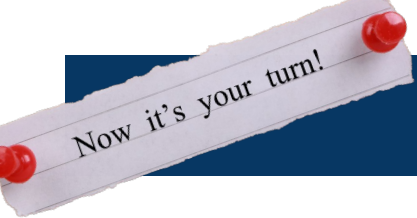

shell

The solid protective part of some animals. Animals with a shell can hide inside this shell, for example a snail, a tortoise.

Practice 2

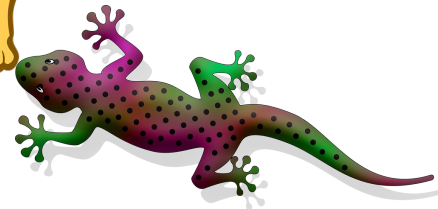

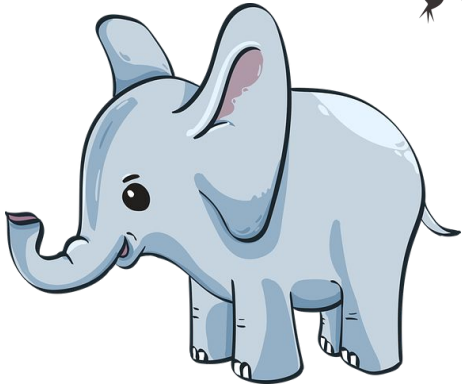

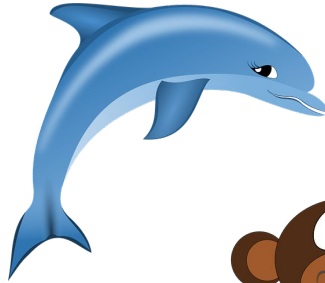

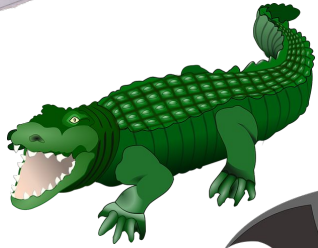

Pets Conversation

Choose an animal (keep it a secret). Describe the animal using your new vocabulary and we must guess what this animal is!

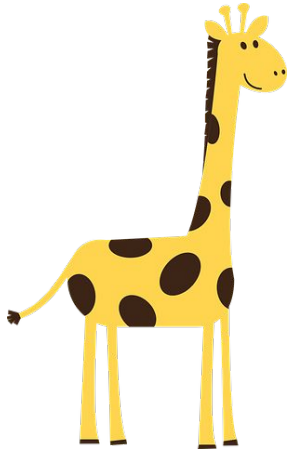

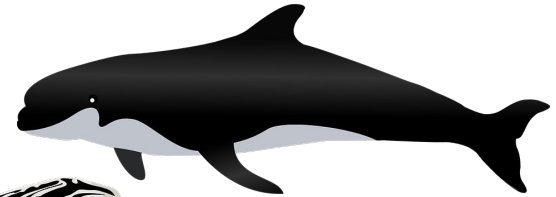

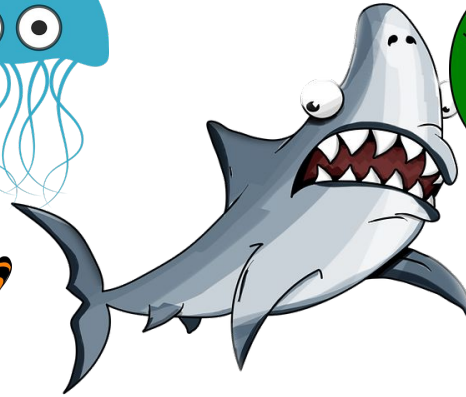

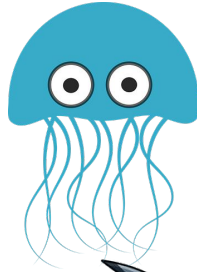

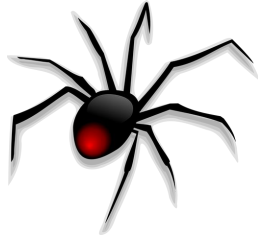

Now it's your turn!

Pets Conversation

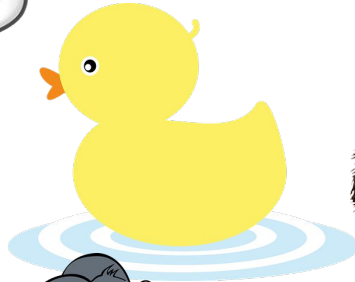

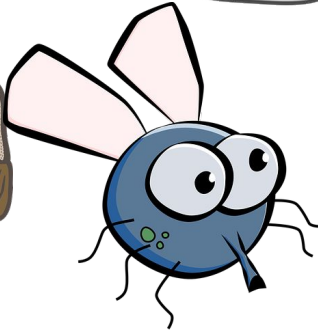

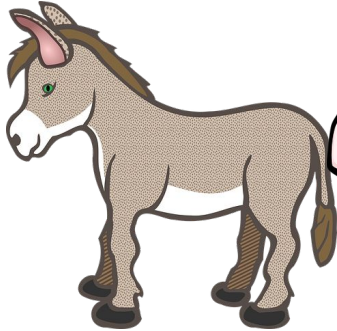

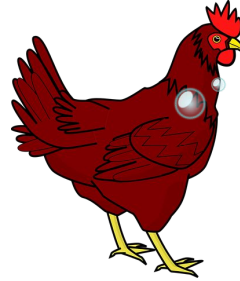

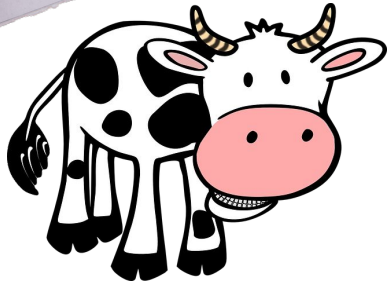

Now it's your turn!

Pets Conversation

Now it's your turn!
