than wrist watches

Robots will replace
numerous jobs

AI will cause problems for
the world

Technology should be allowed to
track and store all your data

Phones shouldn't be
allowed at school/work

We should replace
teachers with AI

Technology will always
be a good thing

We should invest more
money in technology

Online activities are better
than in-person activities

Video games should be banned

Humans are addicted to technology

All the world should have
access to WiFi

Technology is making
mankind lazy
