Phrasal Verbs for Clothing Design

I love clothes and fashion. I have so many clothes in my wardrobe because different tops **go with** different bottoms. My wardrobe is very organised though - all my clothes are **folded up** or **hanging up** and I always throw out old clothes when I've **worn them out**.

It's so important for me to find the right outfit. I **put on** tops with different bottoms and if they don't go, I **take them off** and **try something else on.** I'm also pretty creative with clothes, I like taking simple charity clothes and **doing them up** to look fancy.

to go (together) with

transitive - inseparable
